

The Opticum RED 03H is a high-performance LNB (Low Noise Block) series designed for satellite signal reception. It features advanced technology to deliver superior signal quality and reliability, even in challenging weather conditions. The LNBs in this series are engineered for low noise figures, ensuring minimal signal loss and optimal reception for a wide range of satellite frequencies.

The Opticum RED 03H series is known for its robust construction and high durability, making it suitable for both residential and professional satellite installations. With a sleek and compact design, these LNBs are easy to install and integrate seamlessly with various satellite dishes. The Opticum RED 03H LNBs are compatible with most standard satellite systems, providing a versatile and reliable solution for high-quality satellite TV and radio reception.

### Smart compact technology

#### PREMIUM QUALITY LNB

Noise figure	0.1 dB (typical)
Input frequency	10,7 - 12,75 GHz
Polarization	linear H/V
Water protection	100% tested

#### LNB STANDARDU PREMIUM

Współczynnik szumów	0,1 dB (typowo)
Zakres częstotliwości	10,7 - 12,75 GHz
Polaryzacja	liniowa H/V
Ochrona przed wodą	100% testowane

#### PREMIUMQUALITÄT LNB

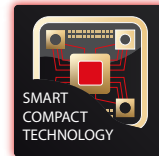

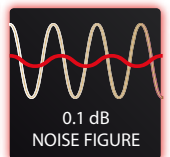

Rauschmaß	0,1 dB (typisch)
Eingangsfrequenz	10,7 - 12,75 GHz
Polarisation	linear H/V
Wasserdicht	100% geprüft

#### LNB PREMIUM KVALITETE

Šumni broj	0,1 (tipično)
Ulazna frekvencija	10,7 - 12,75 GHz
Polarižacija:	H/V linearna
Zaštita od vode:	100% ispitana

#### Високоякісний LNB

Рівень шуму	0,1 дБ (типове значення)
Вхідна частота	10,7 - 12,75 ГГц
Поляризація	лінійна H/V
Вологозахист	100% перевірка
